

CERTIFICATE OF COMPLIANCE

LRQA

hereby declares that the certification assessment has demonstrated that

Brilliance™ Staph 24 Agar

Manufactured and supplied by:
Thermo Fisher Scientific
Wade Road, Basingstoke
Hampshire, RG24 8PW
United Kingdom

has been validated and revealed to be at least equivalent to the reference method as demonstrated by the validation study report, which has been prepared by a MicroVal Expert Laboratory and approved by the MicroVal Technical Committee. The above-mentioned production facility complies to the QMS requirements as mentioned in the MicroVal Rules. The summary of the validation report is available on the MicroVal website: www.microval.org.

Reference method: ISO6888-1:2021 Microbiology of the food chain - Horizontal method for the enumeration of coagulase-positive staphylococci (*Staphylococcus aureus* and other species) —Part 1: Method using Baird-Parker agar medium

Scope: a broad range of foods based on categories: dairy products, fishery products, chocolate, bakery and confectionery products, meat and meat products and multi-component foods

The validation and certification has been performed in accordance with EN ISO 16140-2:2016, EN ISO 16140-2:2016/Amd. 1:2024 and the MicroVal Rules.

Certificate no.: 2008LR11

First approval date: 10 February 2010

Surveillance date: 06 May 2026

Expiry date: 09 February 2030
