

CERTIFICATE OF COMPLIANCE

LRQA

hereby declares that the certification assessment has demonstrated that

BacSomatic™

for enumeration of *total bacterial count* in raw cow's milk

Manufactured and supplied by:

FOSS ANALYTICAL A/S

FOSS ALLÉ

DK-3400 HILLERØD

DENMARK

has been validated and revealed to be at least equivalent to the reference method as demonstrated by the validation study report, which has been prepared by a MicroVal Expert Laboratory and approved by the MicroVal Technical Committee. The above-mentioned production facility complies to the QMS requirements as mentioned in the MicroVal Rules. The summary of the validation report is available on the MicroVal website: www.microval.org.

Reference method: EN-ISO 4833-1:2013 Microbiology of the food chain – Horizontal method for the enumeration of microorganisms – Part 1: Colony count at 30 degrees C by the pour plate technique

Scope: raw cow's milk

The validation and certification has been performed in accordance with ISO 16297, EN ISO 16140-2:2016, the EURL MMP document - Validation criteria of instrumental methods for enumeration of total flora in raw milk, version 2, 21 December 2011 and the MicroVal Rules and Certification.

Certificate no.: 2016LR65

First approval date: 19 March 2018

Renewal date: 09 January 2026

Expiry date: 18 March 2030
